Connectivity Settings

▼ Connectivity Settings

Connection settings can be configured for linking Bluetooth® and Smartphone functions.

Bluetooth[®] Settings

Configures Bluetooth connectivity and related settings.

Function	Explanation
Bluetooth®	Turns on when using Bluetooth [®] . When checked, the status is ON. When unchecked, the status is OFF.
Pair New Device	Establishes Bluetooth connectivity with a mobile device.
[Name of registered Bluetooth [®] device]	Selects the connection type used for the device.
Delete Paired Device	Terminates Bluetooth connectivity with a mobile device.
Advanced Settings	You can change the Bluetooth [®] automatic connection ON/OFF, set the connection order, and reset the Bluetooth [®] settings.

Bluetooth[®] Registration

Device registration (pairing)

To use Bluetooth[®] Audio and Hands-Free, register a Bluetooth[®] device using the following procedure. You can register up to 5 devices that are equipped with the Bluetooth[®] communication function, such as portable audio devices or mobile phones.

Pairing procedure

1. Select "Pair New Device".

2. Check the content on the displayed Bluetooth Search screen and select "Continue".

	\sim		8:07 pm
	(Bluetooth Search		
	Ensure that Bluetooth is enabled on the	Continue	
	desired mobile device before continuing.	Cancel	
		mobile device.	īa

3. Select the name of the device you want to connect from the displayed Bluetooth[®] device list.

4. (Device with Bluetooth[®] version 2.0 or lower)

[Operations using the Bluetooth[®] device] Check the 4-digit passcode displayed on the center display and press the confirmation button or input the passcode.

(Device with Bluetooth® version 2.1 or higher)

[Operations using the Bluetooth[®] device]

Make sure that the 6-digit passcode displayed on the center display is also displayed on the Bluetooth[®] device.

5. When the pairing is successful, the Device Connected screen is displayed on the center display.

The Bluetooth® device name you want to connect in Step 3 is not displayed in the list.

- 1. Select "Pair From Device" at the top of the list.
- 2. [Operations using the Bluetooth[®] device]

Select "Mazda" displayed in the search result list of the Bluetooth[®] device and confirm the passcode or input the passcode.

3. When the pairing is successful, the Device Connected screen is displayed.

Pairing and automatic reconnection

After the pairing is completed, the previous Bluetooth[®] connection is automatically restored the next time the system is activated. When Bluetooth[®] Hands-Free is turned on or the ignition is switched from OFF to ACC, the device's connection status is displayed on the screen.

Bluetooth[®] device selection

When several Bluetooth[®] device pairings have been registered, you can select the Bluetooth[®] device to be connected. When you want to connect a different Bluetooth[®] device that has already been paired, change the Bluetooth[®] device connection using the following procedure.

Connecting a different Bluetooth[®] device

1. Select the name of the device you want to connect from the Bluetooth[®] device list displayed on the Bluetooth[®] Settings screen.

XXXX	Connection Status
✓ Phone and Audio	I XXXX
Phone	コ XXXX
Audio	
Disconnect	

- Phone and Audio: Connects as both a Hands-Free and Bluetooth® Audio device.
- **Phone**: Connects as a Hands-Free device.
- \cdot Audio: Connects as Bluetooth® Audio.

Disconnecting a Bluetooth[®] device connection

1. Select the name of the device currently connected from the Bluetooth[®] device list displayed on the Bluetooth[®] Settings screen.

Bluetooth® Settings		8.1
Bluetooth		((° E >))
