
Bluetooth® Hands-Free

▼ Bluetooth® Hands-Free

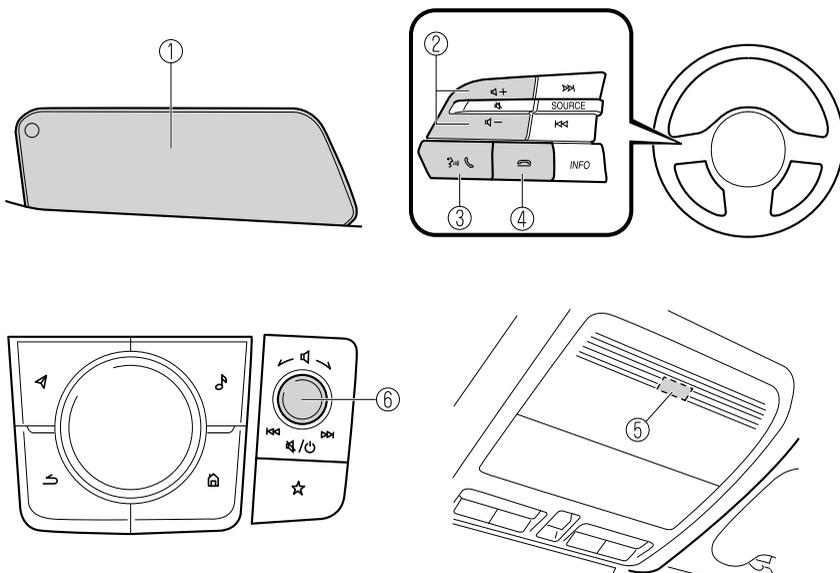

When connecting a Bluetooth® device (mobile phone) to the vehicle's Bluetooth® unit via radio wave transmission, calls can be made or received. For example, even if a Bluetooth® device is in your coat pocket, a call can be made without taking the Bluetooth® device out and operating it directly.

Supported Bluetooth® standard (recommended)

Ver. 1.1/1.2/2.0 + EDR/2.1 + EDR/3.0 (conformity)

And devices that are compatible with Bluetooth® Ver 3.0.

Component Parts

1. Center display
2. Volume adjustment button
3. Talk/pick-up button
4. Hang-up button
5. Microphone
6. Volume knob

The display and the shape of each switch may differ depending on the vehicle model.

Volume adjustment button

Adjusts the voice guidance and conversation volume.

Talk/pick-up button

Activates the voice recognition, skips the voice guidance.

In addition, when you press the button while on an incoming call, you can answer the call.

Hang-up button

Ends the call or refuses an incoming call.
In addition, it ends the voice recognition operation.

Volume knob

Adjusts the voice guidance and conversation volume the same as the volume adjustment button on the audio remote control switch. The volume increases by turning the dial clockwise, and decreases by turning it counterclockwise.

Microphone (hands-free)

The microphone is used for inputting a voice command using voice recognition or when making a hands-free call.

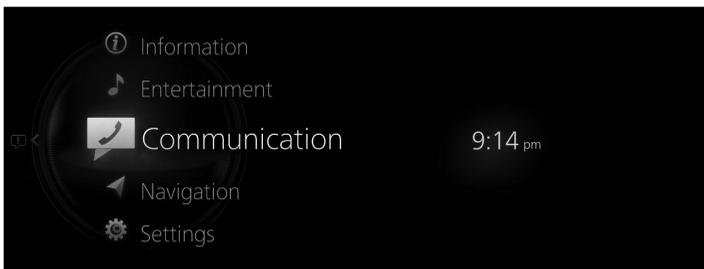

▼ Making a Call

For Mazda Connect, making calls is possible using any of the following six methods:

- Favorites
- Call history
- Phonebook downloaded from a Bluetooth® device (mobile phone) (voice recognition function can be used)
- Dialing a telephone number (voice recognition function can be used)
- “Redial”– Voice recognition command for making a call to the latest outgoing call history.

Making a call from your Favorites

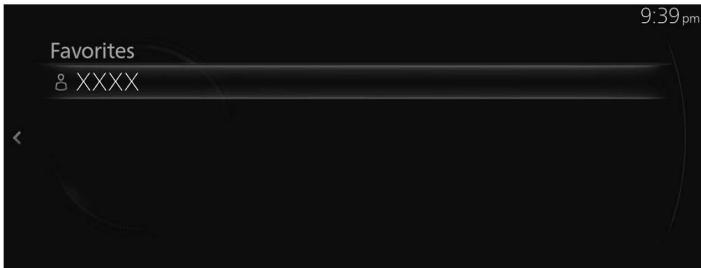

1. Select “Communication” on the home screen.

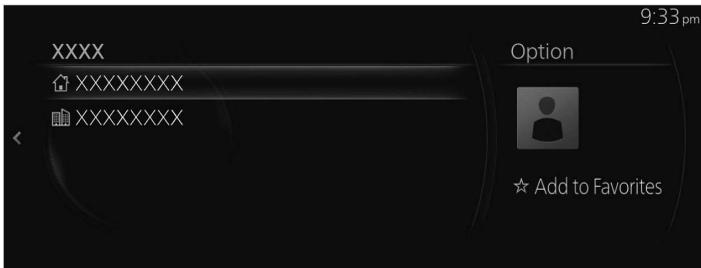

2. Select “Favorites”.

3. Select the contact information you want to make a call from the displayed Favorites list.

4. Select the telephone number and make the call.

Making a call using the call history (outgoing call history, incoming call history)

Operation using voice

Makes a call to the last person called (latest person on outgoing call history) from the mobile phone/vehicle.

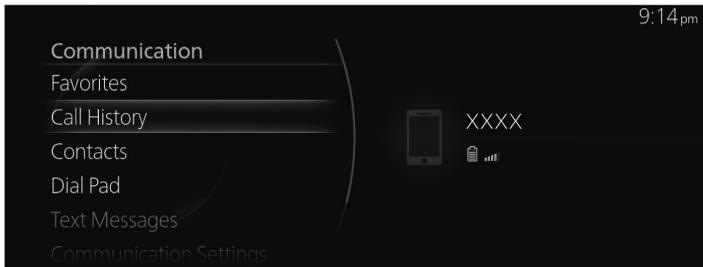

1. Press the   on the audio remote control switch.
2. Say: “Redial”

Center Display Operation

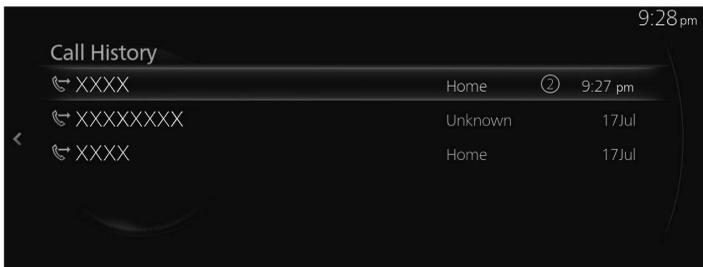

1. Select “Communication” on the home screen.

2. Select “Call History”.

3. Select the contact or telephone number you want to call from the displayed call history to make a call.

Making a call using the contacts (phonebook)

Operation using voice

Telephone calls can be made by saying the contact name in the downloaded phonebook.

1. Press the  on the audio remote control switch.
2. Say: “Call {Contact Name} at {Number Type}”

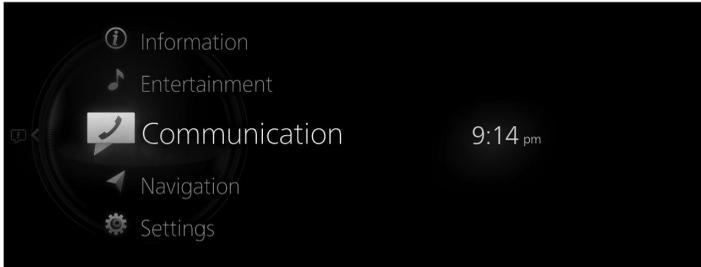

For the {Contact Name}, say the name of the person registered in the phonebook.

Depending on the registered content in a phonebook, calls can be made from “Home”, “Work”, “Mobile”, or “Other” telephone number types.

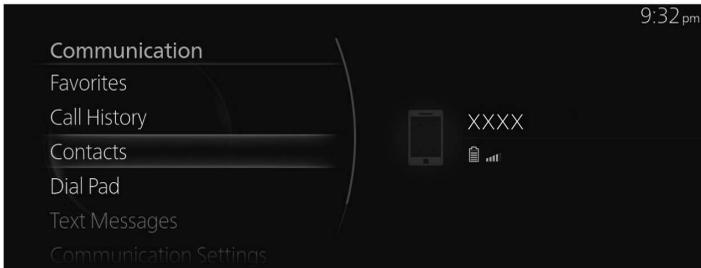

-
3. Follow the voice guidance to make a call.

Center Display Operation

1. Select “Communication” on the home screen.

2. Select “Contacts”.

3. Select the contact you want to call from the displayed contact list and make the call.

-
4. Select the phone number to make the call.

Input the telephone number and make the call

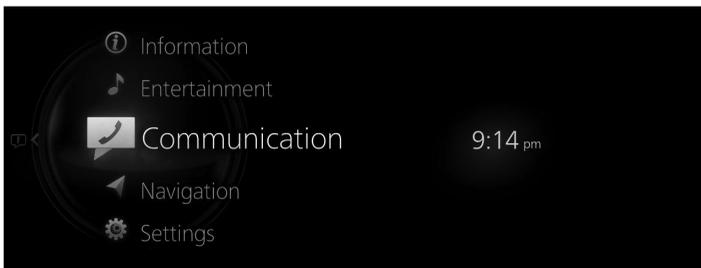

Operation using voice

You can make a call by saying the phone number.

1. Press the  on the audio remote control switch.
2. Say: "Dial {Phone Number}"
3. Follow the voice guidance to make a call.

Center Display Operation

1. Select "Communication" on the home screen.

2. Select “Dial Pad”.

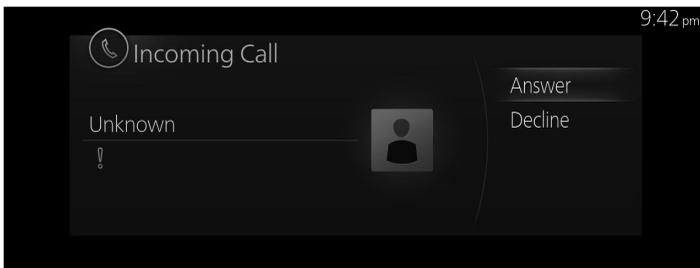

3. Input the telephone number using the dial pad.
4. Select  to make a call.

▼ Receiving a call

When the Incoming Call Notifications setting is turned on, the incoming call notification screen is displayed when receiving an incoming call.

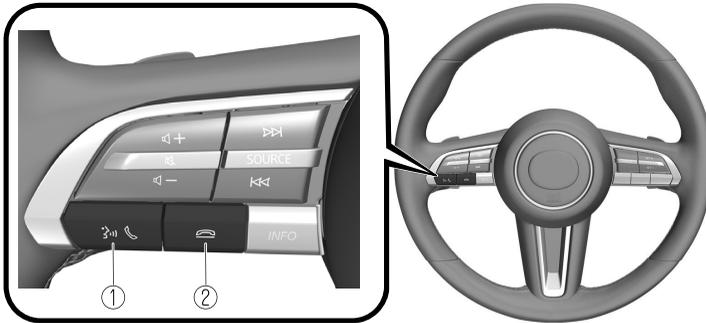

When the conversation begins, press the  on the audio remote control switch or select “Answer” on the screen.

To refuse a call, press the  on the audio remote control switch or select “Decline” on the screen.

No.	Item	Explanation
5		Talk/Pick-up button*1 : (While receiving a call) Press the button to answer the call.
6		Mute button: Press the button to mute. Press it again to cancel the mute.

*1 You can also use the voice recognition for the talk/pick-up button, and hang-up button.

▼ Operation Using Voice Recognition Function

The shape of the switches differs depending on the vehicle model.

No.	Item	Explanation
1		Talk/Pick-up button : When the button is pressed, the voice recognition top screen is displayed and the voice recognition is activated. (While voice guidance is being announced) Press the button to skip the voice guidance.
2		Hang-up button: Press the button to end the voice recognition.

Voice recognition activation

When the talk/pick-up button on the audio remote control switch is pressed, the voice recognition top screen is displayed.

Commands usable at any time

“Help” - Can be used to check for usable voice commands.

“Back” - Returns to the previous screen. When a voice command is spoken while on the telephone number input screen, the content that was previously input is deleted.

“Cancel”- The voice recognition is ended.

To learn more on how to operate Mazda Connect

“Owner's Manual” - The operation guide screen is displayed.

Ending voice recognition

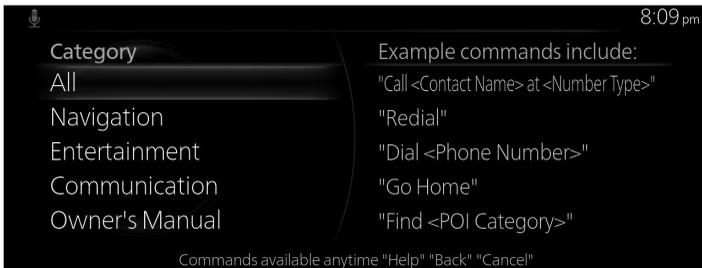

Do any one of the following operations:

- Press the hang-up button.
- Press and hold the talk/Pick-up button.
- Say the word, “Cancel”.

Convenient operating tips for using the voice recognition function

Examples of effective voice commands in various categories are displayed on the voice recognition top screen.

It would be convenient to know these usable voice commands in advance.

To prevent mistaken voice recognition, be aware of the following points:

- When you are using a mobile phone connected via Bluetooth®, the commands relevant to the mobile phone can be used. Connect your mobile phone to Bluetooth® before operating the mobile phone using voice recognition.
- Speaking in a slightly louder voice will improve voice recognition, but an excessively loud voice is unnecessary. Try to speak in a slightly louder voice than when talking to other passengers in the vehicle.
- You do not need to speak slowly. Speak at a normal speed.
- When calling a person in the device's phone book, the recognition rate increases the longer the name is. Errors may occur with names that are short such as “Mama”, “Home”, or “wife”.
- Speak clearly, without pausing between words or numbers.
- Voice commands other than those specified, cannot be recognized. Speak in the wording specified by the voice commands.
- It is not necessary to face the microphone or approach it. Speak the voice commands while maintaining a safe driving position.
- Close the windows and the moonroof to reduce loud noises from outside the vehicle and to prevent the airflow of the air-conditioning system from being a disturbance when using Bluetooth® Hands-Free.
- Make sure that the air flow from the air conditioner is not blowing on the microphone.
- When making voice commands during a voice guidance, speak in a slightly louder voice. But, an excessively loud voice is unnecessary.
- If the voice recognition is poor with the guidance volume set to high, set the Barge-In to OFF.

Some voice command examples corresponding to the voice recognition function

The specified name and number are put into the {}.
